

Lighting Packages

We offer three different lighting packages. Access to them depends on your qualifications and your current enrollment. Please see below for more information on what lighting package you are qualified for, as well as the items in each package. Please inquire at the Lighting Equipment Center if you have more questions.

4'x4' Floppy	4	

Equipment Prep

Equipment prep is an essential part of your checkout. Please come in at your pickup time and check your equipment to make sure that all your requested equipment is there and properly working. If there are any problems, our team will help to address this problem and find a solution. Sometimes the equipment you want is not always available, so coming in for prep gives our staff the opportunity to best accommodate your needs. Our highest priority at the cage is to help the students, but if we do not feel comfortable with the conditions of your checkout, i.e where you're shooting, what you're doing with the equipment, how you're transporting the equipment, we retain the right to deny your checkout.

Cancellation Policy

Please cancel your reservation on Film Scheduler and then call the Cage to cancel your checkout time. Please let the Cage know as soon as possible so other productions can have access to the previously reserved gear.

Equipment returns

On the day of your checkout, please talk to one of the employees to schedule your return time. It is essential that you be ontime for your return or let the Cage know if you are not going to be able to make your return time. If you are late for your return, the other scheduled returns have priority and your return may have to be on standby until there is an opening.

Rental Agreement

You are required to sign a rental agreement that states “The undersigned acknowledges receiving the listed equipment in good condition and accepts full liability for damage or loss including concealed or unreported damage discovered after return.”
